### **SECTION 5 FIRE FIGHTING MEASURES**

**Extinguishing Media:** Use water spray, foam, carbon dioxide or dry chemical. Cool fire exposed containers with water. **Special Protective Equipment and Precautions for Fire-fighters:** Firefighters should wear full emergency equipment and NIOSH approved positive pressure self-contained breathing apparatus. Do not allow run-off from firefighting to enter drains or water courses. **Specific Hazards Arising from the Chemical:** Combustion may produce carbon and nitrogen oxide and hydrogen cyanide.

### **SECTION 6 ACCIDENTAL RELEASE MEASURES**

**Personal Precautions, Protective Equipment, and Emergency Procedures:** Wear appropriate protective clothing to prevent eye and skin contact. Avoid breathing vapors or mists.

**Methods and Materials for Containment and Cleaning Up:** Dike the spilled material. Attempt to reclaim the free product, if this is possible. Place in an appropriate container for use or disposal. Collect residue with inert material and place into a closable container for disposal. Wash spill area. Prevent runoff to storm sewers and ditches leading to natural waterways. Report spill as required by local and federal regulations.
