**Inhalation:** If symptoms develop, remove victim to fresh air. If symptoms develop, get medical attention.

**Ingestion:** If conscious, rinse mouth with water. Never give anything by mouth to a person who is unconscious or convulsing. If large amount is swallowed or gastrointestinal effects develop, get medical attention.

**Most important symptoms/effects, acute and delayed:** Causes mild eye irritation. Prolonged contact may cause skin irritation and dryness. May cause an allergic skin reaction. Inhalation of vapors or mists may cause respiratory irritation. Ingestion may cause nausea, vomiting and diarrhea.

**Indication of immediate medical attention and special treatment, if necessary:** Immediate medical attention is not normally required.

#### SECTION 5 FIRE FIGHTING MEASURES

**Extinguishing Media:** Use water spray, carbon dioxide, alcohol foam or dry chemical to extinguish. Cool fire exposed containers with water.

**Specific Hazards Arising from the Chemical:** Residue will burn after the water has evaporated. Combustion products may include carbon oxides and acrylic monomers.

**Special Protective Equipment and Precautions for Fire-fighters:** Firefighters should wear full emergency equipment and NIOSH approved positive pressure self-contained breathing apparatus. Do not allow run-off from firefighting to enter drains or water courses.

## SECTION 6 ACCIDENTAL RELEASE MEASURES

**Personal Precautions, Protective Equipment, and Emergency Procedures:** Wear appropriate protective clothing to avoid eye and skin contact.

**Environmental precautions:** Avoid release to the environment. Report releases as required by local, state and federal authorities.

**Methods and Materials for Containment and Cleaning Up:** Dike the spilled material. Attempt to reclaim the free product, if this is possible. Place in an appropriate container for use or disposal. Collect residue with inert material and place into a closable container for disposal. Wash spill area.

## SECTION 7 HANDLING and STORAGE

**Precautions for Safe Handling:** Avoid contact with the eyes, skin and clothing. Avoid breathing vapors and mists. Wear protective clothing and equipment as described in Section 8. Use with adequate ventilation. Wash thoroughly with soap and water after handling. Keep containers closed when not in use.

Empty containers retain product residues can be hazardous. Follow all SDS precautions when handling empty containers.

**Conditions for Safe Storage, Including any Incompatibilities:** Store in a dry, well-ventilated area. Protect from physical damage. Store in original container; keep tightly closed. Rotate stock, using older materials first. Do not reuse container for other purposes. Protect from physical damage.

## SECTION 8 EXPOSURE CONTROLS and PERSONAL PROTECTION

### Exposure Guidelines:

INGREDIENTS	EXPOSURE LIMITS
Acrylic Polymers	None Established
Talc	20 mppcf TWA OSHA PEL 2 mg/m <sup>3</sup> TWA ACGIH TLV (respirable)
Mica	20 mppcf TWA OSHA PEL 2 mg/m <sup>3</sup> TWA ACGIH TLV (respirable)
Oxirane, 2-((3-(diethoxymethylsilyl)propoxy)methyl)-	None Established

**Appropriate Engineering Controls:** Use with adequate general or local exhaust ventilation to maintain exposures below the occupational exposure limits.

**Respiratory Protection:** If the exposure limits are exceeded a NIOSH approved dust/mist respirator appropriate for the form and concentration of the contaminants should be used. Selection and use of respiratory equipment must be in accordance with OSHA 1910.134 and good industrial hygiene practice.

**Gloves:** Impervious gloves are recommended to avoid skin contact.

**Eye Protection:** Chemical safety goggles should be worn if splashing is possible.

**Other Protective Equipment:** Impervious clothing as needed to prevent contact.
